Professional Summary

Frontend Developer with hands-on experience building modern web applications using **React**, **TypeScript** and **JavaScript**. Delivered 15+ reusable UI components and four functional modules for an agricultural management platform.

Combines strong technical skills with 8 years of professional graphic design and **UI/UX experience** – enabling faster design-to-code translation and higher quality interfaces from day one.

Professional Experience

Frontend Developer

CBN Agro Tech S.A. – Bucharest, Romania

Aug 2023 – Nov 2024

- Built and delivered 15+ reusable frontend components using **JavaScript** and **Lit Web Components** for a complex product lifecycle management platform.
- Implemented **4 major functional modules**: temperature monitoring, remote device management, automated ventilation and reporting tools.
- Integrated server-side data and optimised UI performance and responsiveness working within an Agile team of 4 engineers.
- Contributed to inventory management, accounting workflow and production monitoring modules; consistently applied scalable, maintainable code practices.
- Collaborated with technical and business stakeholders in a Scrum environment using JIRA, ensuring timely feature delivery.

Full-Stack Development Training & Personal Projects

SDA Academy + Independent

Nov 2024 – Present

- Completed intensive Python Full-Stack programme: Django, Flask, SQL, REST APIs, TDD, algorithms and software design patterns.
- Built and deployed multiple web applications integrating a React frontend with backend APIs – live on GitHub and dianadaraban.netlify.app.

Frontend

React • JavaScript (ES6+) • TypeScript • HTML5 • CSS3 • SCSS • Tailwind • Bootstrap • Responsive Design

Backend & Programming

Python • Flask • Django • Django REST Framework • Object-Oriented Programming (OOP) • Data Structures • Algorithms

Databases

SQL • relational database design • CRUD operations

Libraries & Tools

Redux • Lit (Web Components) • AJAX • REST APIs

Development Tools

Git • GitHub • Agile • Scrum • CI/CD • JIRA

UI / UX & Design

Figma • Interactive Prototyping • Adobe Photoshop • Illustrator • InDesign

Education & Training

Python Full-Stack Development Program (2025 – 2026)

SDA Academy

Python programming fundamentals • Object-Oriented Programming • Algorithms and data structures • SQL databases • REST APIs, HTTP • Django / Flask backend development • Git version control and collaborative workflows

Frontend Web Development (2022 – 2023)

Școala Informală de IT

JavaScript fundamentals • React • HTML5 • CSS3 • Responsive web design

"Ion Mincu" University of Architecture and Urban Planning (2005 – 2011)

Graduated with a degree in Interior Design. Rigorous training in spatial reasoning, aesthetics and functional-visual design – a strong foundation for UI/UX work.

Certifications

- Python for Data Science, AI & Development – IBM
- Designing User Interfaces and Experiences (UI/UX) – IBM
- Developing Websites and Front-Ends with Bootstrap – IBM
- Introduction to Software Engineering – IBM
- Complete Web & Mobile Designer: UI/UX, Figma – Udemy
- The Complete JavaScript Course – Udemy

Additional Professional Experience

GRAPHIC DESIGNER (September 2015 – August 2023)

Red Division S.R.L

Delivered digital and print visual assets for 20+ marketing campaigns; developed consistent brand identities using Adobe Creative Suite.

EXECUTIVE MANAGER (November 2011 – September 2015)

VEGO Holdings

Coordinated cross-department operational activities managing project timelines, resources and business workflows; implemented optimisations that measurably improved team productivity and delivery.

Professional Strengths

- Problem Solving & Debugging
- Analytical Thinking
- Collaboration in Agile Teams
- Attention to Detail
